
48th ANNUAL REPORT 2020-21

INEOS Styrolution India Limited

CARE BEYOND BOUNDARIES

The Corporate Social Responsibility Committee of the Board of Directors of the Company plans and approves plans and approves sustainable community outreach activities and initiatives based on core themes - promotion of education, preventive healthcare, infrastructural support, sanitation facilities, livelihood enhancement and community welfare. This year the Company strengthened this bond with the community through several pivotal CSR activities, like a Rooftop solar electricity generating system at Primary school in Dodka village. We also created two new toilet blocks for girl students there. INEOS Styrolution supports computer literacy and special training at Dhvani school of differently abled students at Bharuch.

A mobile health unit service for 25 villages near Nandesari, Moxi and Katol plants spreading health and hygiene awareness, free check-ups and medications to patients. The project reaches 5 Lakh population.

We have come to aid during the COVID-19, with food packet distribution to migrant workers at Nandesari, 2000 food ration kits to needy families in Vadodara and nearby villages. The company supported yearlong food ration at the resident Sai School for differently abled students.

We are committed to our sustainability and environment protection vision. INEOS Styrolution has developed three Green-zones in Nandesari GIDC and one green zone at Dodka, for green restoration and beautification on landfills and wastelands.

BUSINESS REVIEW

The second wave of Covid-19 has badly hit the country post March 2021. With lockdowns/ restrictions on movement imposed by the State Governments in the country due to second wave of Covid-19, business of the Company may get affected in the first half of the year. Impact assessment of Covid-19 however, is a continuous process given the uncertainty associated with its nature and duration. Company continues to monitor changes in economic condition and is prepared to take measures to safeguard its business operations.

Your Company is having an active focused approach, to ensure minimal impact during this crisis. The liquidity situation is under control and Company has implemented policies to control and reduce all discretionary fixed costs. We continue our close association with Key OEM's in both Automotive and Household segments.

In the coming year, we foresee a GDP growth of 8-10% driven by rebound in industry and demand from rural areas due to a good agriculture season. We expect the automotive business in both two-wheelers and four wheelers to remain strong for the coming year. Consumer spending on healthcare, packaged goods and household goods like washing machines, water/air purifiers are expected to increase post lockdown and our product portfolio is well positioned to cater to these applications.

We would expect crude, other key raw material prices and exchange rates to stabilize in the coming year. Further, risks are constantly monitored and corrective measures, mitigating steps are planned out wherever necessary. An active focused approach helps us in ensuring minimal impact to the Company, if any.

DIVIDEND

Considering the performance, and to appropriately reward the Members while conserving resources to meet future financial requirements, the Board of Directors recommends a dividend of ₹ 10/- per equity share of ₹ 10 each (100%). This dividend is subject to the approval of the Members at the forthcoming Annual General Meeting and if approved, Members whose name appear on the register of Members on August 6, 2021 will be entitled to the dividend.

TRANSFER TO RESERVES

The Company is not required to transfer any amount to its reserves and accordingly no amount is transferred to reserves during the year under review.

MANAGEMENT DISCUSSION AND ANALYSIS

As required by Regulation 34(2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (Listing Regulations), a Management Discussion and Analysis Report forms part of this Report and is annexed hereto.

A review of the performance and future outlook of the Company and its businesses, as well as the state of the affairs of the business, along with the financial and operational developments have been discussed in detail in the Management Discussion and Analysis Report, which forms part of this Report.

CASH FLOW AND CONSOLIDATED FINANCIAL STATEMENTS

As required under Regulation 34 of the Listing Regulations, a Cash Flow Statement forms part of the Annual Report. The Company does not have any subsidiaries and hence is not required to publish Consolidated Financial Statements.

MANAGEMENT DISCUSSION AND ANALYSIS

INEOS is a leading, global styrenics supplier with a focus on styrene monomer, polystyrene, ABS Standard and styrenics specialties. With world-class production facilities INEOS helps its customers succeed by offering the best possible solution, designed to give them a competitive edge in their markets.

INEOS Styrolution India Limited ('the Company') is an Indian company within the Euro 4 bn INEOS Styrolution Group.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Company serves various industries focusing especially on automotive, home appliances, electrical and electronics, construction, packaging and the healthcare industry. Changing economic and business conditions, evolving consumer preferences, rapid technological innovation and adoption and globalisation are creating an increasingly competitive market environment. In this environment, our customers are strongly focusing on cost-saving and innovative solutions. The Company is determined to support the success of its customers in their markets to give them a competitive edge. The Company strives to always provide its customers with the best solutions. It understands customer needs, makes products affordable and enhances the quality of life for a lot of people by making things more convenient, nicer and safer.

OPPORTUNITIES AND THREATS

The second wave of Covid-19 has adversely impacted most sectors in the country post March 2021. With lockdowns/restrictions on movement imposed by some State Governments in the country due to second wave of Covid-19, business of the Company could get affected in the first half of the year. Impact assessment of Covid19 however, is a continuous process given the uncertainty associated with its nature and duration. Company continues to monitor changes in economic condition and is prepared to take measures to safeguard its business operations.

Our employees' health and safety is our number one priority and we have taken measures such as working from home wherever possible, sanitization of workplaces, availability of thermal scanners and masks as well as encouraging vaccination etc. for their wellbeing. Your company has ensured the safe shutdown and start-up of our manufacturing units post the lockdown ensuring all proper safety, hygiene and social distancing measures. Our business continuity and crisis management plans have enabled us to manage this unprecedented situation. In addition, cost and capital expenditure measures have been put in place to drive productivity.

We continue to have close coordination with our key suppliers and customers to manage our product supply chain with minimal interruptions. Our close association with key OEMs in automotive and household segments has enabled us to drive profitable growth and we expect it to continue in the coming year. Our organizational focus on key industry segments ensures a deep understanding of their needs and will enable new product introductions for the specific industry. Your company utilizes R&D capabilities to develop new products for the automotive, household and healthcare segments and maintains a strong intellectual property position. The Moxi compounding capacity expansion has enabled us to cater to the increase in market demand and maintain a leadership position.

In the coming year, we foresee a GDP growth of 8-10% (based on reports published by RBI, CMIE and World Bank) driven by rebound in industry and demand from rural markets due to a good agriculture season. We expect the automotive business in both for two-wheelers and four wheelers to remain strong for the coming year. Consumer spending on household goods like washing machines, water/air purifiers, packaged goods and healthcare are expected to increase post lockdown and our product portfolio is well positioned to cater to these applications.

We would expect crude, other key raw material prices and exchange rates to stabilize in the coming year. Further, risks are constantly monitored and corrective measures, mitigating steps are planned out wherever necessary. An active focused approach helps us in ensuring minimal impact to the Company, if any.

PRODUCTS

Your Company's product portfolio includes ABSOLAC, ABSOLAN, General Purpose Poly Styrene and High Impact Poly Styrene, which continue to have a preferred market status amongst user industries such as automotive, construction, healthcare, household and electronics. With the acquisition of K Resin by INEOS Styrolution in Korea, we will now be in a position of promoting K-resin (SBC) in India. The successful launch of new products like K resin, Novodur® HH and Luran® S has strengthened the market leadership of your Company, especially in the automotive industry. Further, your Company continues to launch new products with innovative solutions creating more value for its customers.

The Company provides styrenic applications for many everyday products across a broad range of industries, apart from automotive, electronics, household, construction and healthcare and includes packaging and toys, sports & leisure. With best-in-class production technology, advanced R&D skills, your company is perfectly equipped to ensure the highest level of quality, efficiency and innovation.

ECONOMIC OUTLOOK

After last year's impact of COVID, the Indian economy was expected to revive and was forecasted to grow between 8-10% this fiscal year. However, the second wave of COVID has made the situation uncertain due to the curfew/lockdown imposed by several states and the first quarter will be impacted. While the business of the Company may get affected to some extent, the Company continues to monitor changes in the business environment and is prepared to take measures to safeguard its business operations. The Government has earlier announced Product Linked Incentives (PLI) schemes in various industries to boost manufacturing and this should support the economy in both short and long term. We also expect the Government to announce some short term measures to help with the liquidity in the market.

The government is expected to continue its focus on infrastructure development and attract foreign investment under the "Ease of doing business" program. There is a push towards local manufacturing and being self reliant as a country. The growth of your company is closely linked to the growth of the Indian economy. With the easing of the lockdown we anticipate a recovery in demand for consumer appliances, consistent with a recovery in the economy in the 2nd half of this fiscal.

RISK MANAGEMENT REPORT

Your directors wish to state that risk management and control practices have been deployed across all the functions and functional evaluation of rating probability and impact is being constantly monitored under the guidance of the managing director. Very high ranking risks are deliberated at the board level and mitigating steps and measures applied or to be applied are discussed.

Your Company has integrated its risk monitoring procedures with the global INEOS policies. The objectives of the Company's risk management framework comprise the following:

- To identify, assess, prioritize and manage existing as well as new risks in a planned and coordinated manner;
- To increase the effectiveness of internal and external reporting structure and
- To develop a risk culture that encourages employees to identify risks and associated opportunities and respond to them with appropriate actions.

The senior management team forming part of the risk managing organization conducts an exercise every quarter internally for an ongoing risk assessment and takes measures and effective steps to mitigate / reduce impact and control the same from time to time. The managing director gives overall directions in controlling / mitigating risks generally and is

in complete know of the organizational risks potential. The Company has a proper system to ensure compliance of legal / regulatory requirements that are applicable to the Company.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

Your Company's internal control systems are adequate and commensurate with the size of operations. These controls ensure that transactions are authorized, recorded and reported on time. They ensure that assets are safeguarded and protected against loss or unauthorized disposal.

The internal auditors of the Company M/s. Ernst & Young carried out audits in different areas of your Company's operations. Post-audit reviews were carried out to ensure that audit recommendations were implemented. The audit committee reviews the adequacy and effectiveness of the internal control systems, significant audit observations and monitors the sustainability of remedial measures.

FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Financial performance and review of operations form part of the Board's report which details the Company's financial and operational performance.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

Our employees are our most important assets. As of March 31, 2021, the Company employed 434 permanent employees, 53 employees on fixed term contracts and 431 employees on contractual basis, through contractors. Our culture and reputation as a global leader in the styrenics industry enables us to recruit and retain some of the best available talent in India. Our human resource (HR) division acts both as a service provider and as a governance unit in the various employee-related fields of work. The scope of activity include attraction, selection and talent development and rewarding of employees, while also overseeing organizational leadership and culture and ensuring compliance with employment and various applicable labour laws. Company's HR fosters a trusting and open culture by promoting mutual respect and fairness throughout the entire organization.

The management has a strong belief that the industrial relations will remain cordial and harmonious and continues to be so in the year ahead. Your directors believe that continuous HR interaction has and would lead to a healthy environment and a strong relationship of mutual trust.

 10. The Employees State Insurance Act, 1948
 11. The Employees' Provident Fund And Miscellaneous Provisions Act, 1952
 12. The Payment Of Bonus Act, 1965
 13. The Payment Of Gratuity Act, 1972
 14. The Contract Labour (Regulation And Abolition) Act, 1970
 15. The Maternity Benefit Act, 1961
 16. The Child Labour (Prohibition And Regulation) Act, 1986
 17. The Industrial Employment (Standing Orders) Act, 1946
 18. The Employees' Compensation Act, 1923 (Earlier Known As Workmen's Compensation Act, 1923)
 19. The Apprentices Act, 1961
 20. The Equal Remuneration Act, 1976
 21. The Employment Exchange (Compulsory Notification Of Vacancies) Act, 1956

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Listing Agreements entered into by the Company with BSE Ltd and National Stock Exchange of India Ltd. Including The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('LODR').

We further report that

The Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views, if any, are captured and recorded as part of the minutes.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report (by way of information) that during the audit period:

- (a) The Company has not issued any securities during the period under review and accordingly
 - The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 and
 - The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014
 - The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008were not applicable during the audit period.
- (b) The Company has not bought back any security of the Company and accordingly the Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 was not applicable during the audit period.
- (c) In-principle approval for the delisting offer was accorded by BSE Ltd. and National Stock Exchange of India Limited on 3rd July, 2020 and 6th July, 2020 respectively and the Promoter had issued the Public Announcement ('PA') and the Letter of Offer ('LOF') seeking to acquire, in accordance with the Delisting Regulations and on the terms and conditions set out therein and in the PA and the LOF, up to 43,96,407 (forty three lakh ninety six thousand four hundred and seven) Equity Shares ("Offer Shares") representing 25.00% (twenty five percent) of the paid-up equity share capital of the Company that are held by the Public Shareholders of the Company. The Public Shareholders holding Equity Shares were invited to submit bids pursuant to the book building process conducted through the Stock Exchange Mechanism made available by BSE during the Bid Period (July 16, 2020 to July 22, 2020), in accordance with the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 ('the Delisting Regulations').

INEOS Styrolution India Limited

In terms of Regulation 15(1) of the Delisting Regulations, the price determined as the discovered price (being the price at which the shareholding of the Promoter reaches 90% (ninety percent) of the paid-up equity share capital of the Company pursuant to the book building process in the manner specified in Schedule II of Delisting Regulations) was ₹ 1,100/- (Rupees one thousand one hundred only) per Equity Share ("Discovered Price").

However, the Promoter decided to reject the discovered price of ₹ 1,100 per Equity Share, determined pursuant to the book building process, and also decided not to make any counter offer in terms of Regulation 16(1A) of the Delisting Regulations and accordingly the delisting offer was deemed to have been failed.

(d) The Company had passed Special Resolutions at its 47th Annual General Meeting held on 27th August, 2020 approving:

- Appointment of M/s. Deloitte Haskins & Sells as statutory auditors of the Company for 5 years
- Re-appointment of Mr. Nitankumar Duggal as Whole-time Director of the Company for the period of 3 years w.e.f. 31st August, 2020

However, thereafter Mr. Duggal resigned on 31st December, 2021 as a Whole-time Director as he had taken over the role of Vice President Operations Asia-Pacific (excluding India) within INEOS Styrolution group w.e.f. 1st January, 2021 based in China.

(e) The disclosure of Related Party Transactions pursuant to Regulation 23(9) of LODR for the half year ended 31st March, 2020 was duly disseminated to the shareholders via website of National Stock Exchange of India Limited. However, due to technical reasons the said information could not be submitted to BSE Ltd.

Principle 2

- Saving lives with diagnostic and disposable devices like insulin pens, inhalers, injectable, tubes, medicine storage, laboratory apparatus and more.
- Our products general and special grades pack everything, be it food cases, cosmetics, containers, shrink sleeves and flexible packaging films. The shelf life of contents is enhanced, and retaining the aroma and flavour.
- Our applications in Toys, sports and lifestyle goods help the users to be in happy, healthy and active frame body and mind.

Products:

Our ABSOLAC and NOVODUR grade, through their unique combination of lightweight, durability and other intrinsic properties, they contribute to addressing global challenges, such as environmental and climate protection, resource efficiency, and rising living standards. High adhesion, dimensional stability and pre-coloured availability help end user manufacturers to make the goods swiftly, streamlined manner and minimal wastage.

Our LURAN grades improve productivity, as the use of polyuria eliminates the need foto mould release agents, resulting in significantly reduction of the processes interval periods, manufacturing costs and work waste due to a drop in reject rate.

Our GPPS (General Purpose Polystyrene) grades exhibit high mechanical strength at low weight, do not require pre-drying and consume less process energy compared to other plastic materials, infect up to 60% less energy compared to PP (Polypropylene) and 40% less than PET (Polyethylene terephthalate)

R&D for future: We believe in achieving success together. Hence we co-create special styrenic grades that appeal to customised requirements of our valued customers. Our marketing and sales team takes continual feedback and interacts with customers, to understand how INEOS Styrolution can support their product development plans. This forms the foundation for formulating new grades in our state of the art Research & Development Centre (RDC) at Moxi. Evolution and value addition is a seamless way of life at INEOS Styrolution.

INDEPENDENT AUDITOR'S REPORT

**To the Members of
INEOS Styrolution India Limited**

Report on the audit of the financial statements

Opinion

We have audited the accompanying financial statements of INEOS Styrolution India Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	Auditor's Response
<p>Assessment of ongoing income tax and indirect tax litigations [Refer to 1(s) Significant accounting policies) and Note 38 (Contingent liabilities) to the financial statements]</p> <p>As at 31 March 2021, the Company is subjected to a number of indirect tax litigations relating to disallowance of CENVAT credit in respect of payment of countervailing duty and special additional duty through Duty Entitlement Passbook (DEPB) in respect of import of raw materials and availing of CENVAT credit, disallowance of service tax credit on certain input services and income tax litigations relating to</p>	<p>Our procedures on the management's assessment of these matters included:</p> <ul style="list-style-type: none">• Understanding and evaluating process and controls designed and implemented by the management including testing of relevant controls;• Gaining an understanding of the tax related litigations through discussions with the management, including the significant developments, additions and settlements during the year;

Key audit matter	Auditor's Response
<p>disallowance of expenses, transfer pricing adjustments etc. (together referred to as "litigations"). These matters are in appeal before various judicial forums.</p> <p>The eventual outcome of these litigations is uncertain, and the positions taken by the management are based on the application of significant judgement and estimation. The review of these matters requires application and interpretation of tax laws and reference to applicable judicial pronouncements. Based on management judgement and the advice from external legal and tax consultants and considering the merits of the case, the Company has recognized provisions wherever required and for the balance matters, where the management expects favourable outcome, these litigations have been disclosed as contingent liabilities in the financial statements unless the possibility of outflow of resources is considered to be remote.</p> <p>Given the uncertainty and application of significant judgment in this area in terms of the eventual outcome of litigations, we determined this to be a key audit matter.</p>	<ul style="list-style-type: none"> • Inspecting demand notices, if any, received from tax authorities and evaluating the Company's response to those matters; • Obtaining independent confirmations from the Company's external tax experts including the status of the significant litigations, their views regarding the likely outcome and magnitude of the potential exposure; • Evaluating the management's assessment on the likely outcome and potential magnitude by involving auditor's experts on complex or significant matters as considered necessary; and • Assessing the adequacy of the Company's disclosures.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's Report of even date and annexure thereof, but does not include the financial statements and our auditor's report thereon.

- Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon
- In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters paragraph

1. The comparative financial information of the Company for the year ended March 31, 2020 prepared in accordance with Ind AS included in the Financial Statements has been audited by the predecessor auditors. The report of the predecessor auditors on this comparative financial information dated June 25, 2020, expressed an unmodified opinion.
2. On account of COVID-19 related restrictions we were not able to physically observe the physical verification of inventory that was carried out by the management near to the year end. ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **INEOS Styrolution India Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended March 31, 2021

Background

INEOS Styrolution India Limited (the 'Company') is a public limited Company domiciled in India and is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is engaged in manufacture, trading and sale of "Engineering Thermoplastics". The Company has manufacturing facilities at Nandesari, Moxi, Katol and Dahej and Research and Development centre at Moxi in Gujarat.

Note 1: Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

(i) Compliance with Ind AS:

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Schedule III to the Act.

The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year. Also refer Note 1(a)(iii) below.

(ii) Historical cost convention:

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer note 35);
- assets held for sale - measured at lower of its carrying amount and fair value less costs to sell
- defined benefit plans - plan assets measured at fair value (refer note 40).

(b) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Refer note 42 for segment information presented.

(c) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements of the Company are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the

transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in Statement of profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of profit and loss on a net basis within other income or other expenses.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(d) Revenue recognition

(i) Sale of goods

The Company is engaged in manufacturing, trading and sale of 'Engineering Thermoplastics'. Sales are recognised when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Company has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognised based on the price agreed with the customer, net of the estimated discounts based on discount agreements. Revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. No element of financing is deemed present as the sales are made with a credit term of 30-45 days, which is consistent with market practice.

Sale of goods does not involve warranty obligation or right to return.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) Financing components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(e) Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2020

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax includes, Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability. Accordingly, MAT is recognised as an asset in the Balance Sheet when asset can be measured reliably and it is probable that future economic benefit associated with it will be realised.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(f) Leases

As a lessee:

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the company. Contracts may contain both lease and non-lease components. As a general rule, the Company separates non-lease components, such as services, from lease payments except where it is not practical to determine non-lease components.

Assets and liabilities arising from a lease are initially measured on present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in substances fixed payments), less any lease incentive receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- payments of penalties for terminating the lease, if the lease term reflects the company exercising that option

Lease payments to be made under reasonably certain extension option are also included in the measurement of the liability. The lease payments are discounted using the lessee's incremental borrowing rate, being the rate that lessee would have to pay to borrow the fund necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar term, security and conditions.

The Company is exposed to potential future increases in variable lease payments based on index or rate, which are not included in the lease liability until they take effect. When adjustment to lease payments based on index or rate take effect, the lease liability is reassessed and adjusted against the right-of-use asset.

Lease payments are allocated between principal and finance cost. Finance cost is charged to profit or loss over the lease period so as to produce a constant periodical rate of interest on the remaining balance of the liability for each period.

Variable lease payments other than those based on index or rate are recognized in profit or loss in the period in which the condition that triggers those payments occurs.

Right-of-use assets are measured at cost comprising the following:

- the amount of initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight line basis.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognized on a straight-line basis in the Statement of profit and loss. Short term leases are leases with a lease term of 12 months or less. Low value asset comprise IT equipment and Office Equipment.

As a lessor:

The Company does not have any lease arrangements where the entity is a lessor.

(g) Impairment of assets

The carrying amounts of assets are reviewed at each balance sheet date for any indication of impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(h) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

(i) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost, less provision for impairment.

(j) Inventories

Raw materials, packing materials, stores and spares, work in progress, traded and finished goods are stated at the lower of cost and net realisable value. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2021

Costs are assigned to individual items of inventory on the basis of weighted average cost basis. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(k) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income as the case may be. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through Statement of profit and loss.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of acquisition of financial assets carried at fair value through profit and loss are expensed in the Statement of profit and loss.

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured subsequently at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method.

Equity instruments : The Company subsequently measures all equity investments at fair value through Statement of Profit and Loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortised cost. The impairment methodology applied depends on whether there has been an increase in credit risk (Refer note 36).

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- The Company has transferred the rights to receive cash flows from the financial asset or
- Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Income recognition

Interest income

Interest income on financial assets at amortised cost is calculated using the effective interest method is recognised in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

Dividends

Dividends are received from financial assets at fair value through profit or loss. Dividends are recognised as other income in profit or loss when the right to receive payment is established.

(l) Derivatives

Derivatives are taken as the hedging instrument by the Company.

For derivatives taken against underlying asset/liability or that are used to hedge forecast transactions, the Company generally designates only the change in fair value of the forward contract related to the spot component and aligned forward element on reporting date.

Gains or losses relating to the effective portion of the change in the spot component and aligned forward element of the forward contracts are recognised in Statement of profit and loss.

(m) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

(n) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2020

Depreciation methods and estimated useful lives:

Depreciation is calculated using the straight-line method over useful lives of assets as follows:

Asset Category	Estimated useful life
Lease hold land	Lease Term
Building, including temporary structure (*)	3-60 Years
Road (*)	10 Years
Plant & Machinery (*)	3-40 Years
Furniture & Fixtures (*)	6-16 Years
Office Equipment (*)	3-7 Years
Vehicles (*)	8-10 Years

(*) Based on technical evaluation, the management believes that the useful life given above best represent the period over which management expects to use these assets. Hence, the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

Useful life of Leasehold Improvements is considered based on lease term.

Depreciation and amortization methods and useful lives are reviewed periodically, including at each financial year end.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the Statement of profit and loss.

(o) Non-Current Assets Classified as Held for sale

Non-current Assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the asset is recognised at the date of de-recognition.

Assets are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Assets classified as held for sale are presented separately from the other assets in the balance sheet.

(p) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid or not due for payment. The amounts are unsecured and are usually paid as per the agreed payment

terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(q) Borrowings

Borrowings are initially recognised at fair value and are subsequently measured at amortised cost. In case of foreign currency loan, any difference between the proceeds received and repayment amount is recognised in the Statement of profit and loss.

Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(r) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

(s) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. These are reviewed at each reporting period and reflect the best current estimate. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(t) Employee benefits

Short-term employee benefits obligations:

All employee benefits payable within twelve months of service such as salaries, wages, bonus, ex-gratia, medical benefits etc. are classified as short-term employee benefits and are recognised in the Statement of Profit and Loss as an expense

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2020

and are presented as current employee benefit obligations in the Balance sheet at the undiscounted amount on an accrual basis. Short-term leave encashment is provided at undiscounted amount during the accounting period based on service rendered by employees.

Termination benefits are recognised as an expense as and when incurred.

Defined contribution plans

Contributions to defined contribution schemes such as contribution to Provident Fund, Super annuation fund, Employees' State Insurance Corporation, National Pension Scheme and Labours Welfare Fund are charged as an expense to the Statement of Profit and Loss based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further defined obligations beyond the monthly contributions.

Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the "Gratuity Plan") covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment. The Company's liability is actuarially determined (using the Projected Unit Credit method) by an independent actuary at the end of each year. Remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income.

Non-current compensated absences: The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the Balance Sheet if the entity does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

(u) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(v) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(w) Earnings per share

Earnings per share (EPS) is calculated by dividing the net profit or loss for the period attributable to Equity Shareholders by the weighted average number of Equity shares outstanding during the period. Earnings considered in ascertaining the EPS is the net profit for the period and any attributable tax thereto for the period (Refer Note 34).

(x) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off in lakhs as per the requirement of Schedule III, unless otherwise stated.

(y) Exceptional items

When items of income or expense are of such nature, size and incidence that their disclosure is necessary to explain the performance of the Company for the year, the Company makes a disclosure of the nature and amount of such items separately under the head "Exceptional items"

Critical estimates and judgments :

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the group's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Areas involving critical estimates and judgements are:

Estimated useful life of tangible assets - Refer Note 1 (n) and Note 2 (A)

Estimated defined benefit obligation - Refer Note 1 (t) and Note 40

Allowance for doubtful debts - Refer Note 1 (k) (iii) and Note 36 (i)

Leases -Refer Note 1 (f) and 2(B)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

(iii) Extension and termination options in Lease Contracts

These options are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. Extension and termination options are included in the lease term, only if the Company has the right to exercise these options and reasonably certain to exercise the right.

Critical judgements in determining the lease term

In determining the lease term, management considers all facts and circumstances that creates an economic incentive to exercise an extension option, or not to exercise a termination option. Extension option (or period after termination option) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

For the leases of office, warehouse, land, vehicle, employee quarters, and equipment, etc., the following factors are normally the most relevant:

1. If there is significant penalty to terminate (or not extend), the Company is typically reasonably certain to extend (or not terminate).
2. If any leasehold improvements are expected to have a significant remaining value, the Company is typically reasonably certain to extend (or not terminate)
3. Otherwise, the Company considers the other factors including historical lease duration and the costs and business disruption required to replace the leased asset.

Most extension options in leases have not been included in the lease liabilities, because the Company could replace the asset without significant cost or business disruption.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

During the current financial year, the financial effect of revising lease terms to reflect the effect of exercising extension and termination option was a net decrease in recognized lease liabilities of ₹ 64.54 Lakhs and right-of-use assets of ₹ 46.65 Lakhs (March 31, 2020, an increase in recognized lease liabilities and right-of-use assets of ₹ 8,952.35 Lakhs).

Fair value measurements

A. Accounting classification and fair values

This section mentions the classification of financial instruments and explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

NOTES FORMING PART OF FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2021

B. Measurement of fair values

i) Valuation techniques and significant unobservable inputs

The carrying amounts of financial assets and liabilities other than those valued at Level 1 and Level 2 are considered to be the same as their fair values due to the current and short term nature of such balances and no material differences in the values. Non-current security deposits are interest free deposits repayable on demand. Accordingly, the carrying value of the same has been considered as fair value. Difference between fair value of non-current borrowings carried at amortised cost and the carrying value is not considered to be material to the financial statement.

ii) Levels 1, 2 and 3

Level 1 : This includes listed equity instruments that have a quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

iii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments.
- the fair value of forward foreign exchange contracts are determined using forward exchange rates at the Balance Sheet date.

All of the resulting fair value estimates are included in level 1 and 2.

Financial risk management

Risk management framework

Financial Risk Evaluation and Management is an ongoing process within the Organisation. The Company has a robust risk management framework to identify, monitor and minimize risks. As a process, the risk associated with each area are identified and prioritized based on severity, likelihood and effectiveness. Process owners are identified for each risk and metrics are developed for monitoring and reviewing the risk mitigation controls. Risk evaluation and assessments are reviewed by the Chief Financial Officer (CFO) and Managing Director on a quarterly basis. This is constantly monitored by the Board.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact on the financial statements.

i) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its operating activities, primarily trade receivables and from its financing activities, including deposits with banks and other financial instruments.

The carrying amount of financial assets represents the maximum credit exposure, being the total of the carrying amount of balances with banks, short term deposits with banks, trade receivables and other financial assets excluding equity investments.

Trade receivables

Trade receivables of the Company are typically unsecured and derived from sales made to a large number of independent customers. Customer credit risk is managed by the Company based on established policies, procedures and control relating to customer credit risk management. Before accepting any new customer, the Company has appropriate level of control procedures to assess the potential customer's credit quality. The credit-worthiness of its customers are reviewed based on their financial position, past experience and other relevant factors. Outstanding customer receivables are reviewed periodically.

The Company uses Expected Credit Loss (ECL) model to assess the impairment loss. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account available external and internal credit risk factors, the Company's historical experience for customers and forward looking information.

Financial risk management

ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's cash flow management system ensures, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments.

The gross outflows of the contractual undiscounted cash flows relating to derivative financial liabilities disclosed in the above table are held for risk management purposes and are not usually settled before contractual maturity.

Note - 36**Financial instruments – Fair values and risk management****iii) Market risk**

Market risk is mainly driven by changes in economic and political environment across globe, fluctuation in foreign exchange rates and interest rates movement, which affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables, payables and current borrowings. The objective of market risk management is to avoid excessive exposure in foreign currency revenues and costs.

1. Currency risk

The functional currency of the Company is Indian Rupee. The Company is exposed to currency risk on account of payables and receivables in foreign currency. Since there is no material export sales, this is not perceived to be a major risk. Raw materials are mostly imported. The company has a policy to mitigate this risk by taking derivative contracts to protect against any adverse exchange rate fluctuation. This policy is reviewed on a periodic basis.

Company does not use derivative financial instruments for trading or speculative purposes.

(a) Foreign currency risk exposure

The Company's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

2. Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of variable interest bearing liabilities because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing liabilities will fluctuate because of fluctuations in the interest rates. Current borrowing of previous year comprise of working capital loans for an average tenure of 1 to 60 days, and buyers credit for an average tenure of 60 days.

The Company's fixed rate borrowings were carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(a) Interest rate risk exposure

Note - 37 Capital Management

The primary objective of the Company's capital management is to maximise shareholder's value. The Company monitors capital using Debt-Equity ratio, which is total debt divided by total equity.

For the purposes of the Company's capital management, the Company considers the following components of its balance sheet to be managed as capital:

Total equity as shown in the Balance Sheet includes Share capital, General reserve, Retained earnings, Securities premium and Capital reserve. Total debt includes current debt plus non-current debt (including current maturities of long term debt and lease liabilities).

The above matters are under adjudication and the Company expects the judgment will be in its favor and has therefore, not recognised the provision in relation to these claims. Future cash outflow in respect of above will be determined only on receipt of judgement/decision. The potential undiscounted amount of total payments that the Company could be required to make if there was an adverse decision related to above matters as of the date reporting period ends are as illustrated above.

* DEPB Matter

In respect of imports of raw materials during the period January 2005 to December 2011 for consumption at one of its plant, the Company paid CVD and SAD through DEPB and availed CENVAT credit of the same.

In respect of said imports, credit is available only if payments are made through DEPB scrips issued under Exim Policy 2004-09 and not for DEPB scrips issued under Exim Policy 2002-07

The department had contended that the Company had made payments through DEPB scrips issued under Exim Policy 2002-07 and not for DEPB scrips issued under Exim Policy 2004-09, and issued SCNs.

The Company on its part has contended that the payment has been made through DEPB scrips issued under Exim Policy 2004-09 in respect of said imports. While the Company is not in a position to present the DEPB scrips, it maintains that the Bill of Entries have been finally assessed by Customs at the Port of Import and they indicated the applicable notification therein. The Principal Commissioner of Central Excise, Customs and Service Tax adjudicated the matter and disallowed the credit, and imposed interest and penalties. In this respect, the Company had filed a petition in High Court for which the Company received an order in November 2017, whereby the cases was remitted back to the Principal Commissioner. The matter was heard afresh by the Principal Commissioner, and passed an order disallowing credit of ₹ 1,247.63 lakhs (being amount for which the Company could not present DEPB scrips and was not certain whether the scrips were issued under Exim Policy 2004-09 or not) from total contested amount of ₹ 7,990.97 lakhs in May 2018. Penalty amounting to ₹ 124.76 lakhs was imposed by the adjudicating authority. Against this the Company has made appeal to CESTAT. The department has filed an appeal against the order of the Principal Commissioner allowing credit of ₹ 6,743.35 lakhs (being amount for which Bill of Entries were available / SCN related to period of purchase of raw material after April 1, 2007) to the Company.

Management believes that their contention has strong merits and in its judgement, the outcome of the matter is probable. The Management has accordingly disclosed the amount as a contingent liability.

Impact of Judgement on Provident Fund

With reference to the Supreme Court Judgment in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II) West Bengal" and the related circular (Circular No. C-1/1(33)2019/Vivekananda Vidya Mandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952, the aforesaid matter is not likely to have a significant impact as per the assessment by management and accordingly, no provision has been made in these Financial Statements.

Significant estimates: Actuarial assumptions and sensitivity

The significant actuarial assumptions were as follows:

Particulars	₹ in Lakhs	
	As at March 31, 2021	As at March 31, 2020
a. Discount rate (per annum)	6.40%	6.60%
b. Estimated rate of return on Plan Assets (per annum)	6.40%	6.60%
c. Rate of escalation in salary (per annum)	8.00%	8.00%

The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market.

The expected rate of return on plan assets is determined considering several applicable factors, mainly the composition of plan assets held, assessed risks and historical results of return on plan assets.

Sensitivity analysis

Reasonable possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Particulars	₹ in Lakhs	
	As at March 31, 2021	
	Increase	Decrease
Discount rate (0.5% movement)	(46.12)	48.90
Salary growth rate (0.5% movement)	47.66	(45.39)

	Increase	Decrease
	Discount rate (0.5% movement)	(39.87)
Salary growth rate (0.5% movement)	41.31	(39.37)

Risk exposure

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

i) Asset volatility

The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets underperform this yield, this will create a deficit. The plan assets are managed by LIC and are subject to market risk. Any shortfall is contributed to the fund by the Company. The Company intends to maintain the above investment in the continuing years.

NOTES FORMING PART OF FINANCIAL STATEMENTS (CONTINUED)

for the year ended March 31, 2021

ii) Changes in bond yields

A decrease in bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the processes used to manage its risks from previous periods. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets.

Expected contributions to post-employment benefit plans for the year ending March 31, 2021 are ₹ 158.21 Lakhs. (March 31, 2020: ₹ 175.85 Lakhs)

The weighted average duration of the defined benefit obligation is 6.48 years (2019-20: 6.61 years). The expected maturity analysis of gratuity is as follows:

Particulars	₹ in Lakhs			
	Less than a year	Between 1 - 5 year	Over 5 year	Total
Defined benefit obligation (gratuity)				
As at March 31, 2021	175.57	689.15	583.86	1,448.58
As at March 31, 2020	109.28	489.28	624.85	1,223.41

(ii) **Unfunded**

Compensated absences

The Actuarial liability for compensated absences as at year ending March 31, 2021 is ₹ 480.59 Lakhs (March 31, 2020: ₹ 426.31 Lakhs). Current year charge is included in Employee benefit expense (Refer Note 31).

Note - 44

Exceptional Items

In respect of one of the leasehold lands, the Company has received provisional order from relevant authority, demanding to pay ₹ 1,940.11 Lakhs towards fees and non-utilization of land charges. Accordingly, the Company has created a liability for the said amount during the year ended March 31, 2020. In view of the said provisional order, the Company has reviewed its other similar leases for potential liability and accordingly, based on the assessment and best estimates of the management, a provision of ₹ 1,855.34 Lakhs has been made during the year ended March 31, 2020 in respect of transfer fees for those leases. The Management is in the process of evaluating various remedial measures that can be taken.

Note - 45**Events occurring after the reporting period**

The proposed dividend on Equity shares at ₹ 10 per share is recommended by the directors which is subject to the approval of shareholders in the ensuing annual general meeting.

The second wave of Covid-19 has badly hit the country post March 2021. With lockdowns/ restrictions on movement imposed by some State Governments in the country due to second wave of Covid-19, business of the Company may get affected to some extent. Impact of same is unknown. Impact assessment of Covid-19 however, is a continuous process given the uncertainty associated with its nature and duration. Company continues to monitor changes in economic condition and is prepared to take measures to safeguard its business operations.
